Daffodils for 2016 – 2017

February Gold

Yellow petals with a long yellow trumpet. One of the earliest and longest lasting of all daffodils. Blooms in early spring. The blooms can last for a month. Among the very best daffodils for naturalizing. Full sun/partial shade. 8" – 12" tall.

Carlton

A large daffodil with a sweet fragrance rather like vanilla. It readily multiplies and can form the backbone of your daffodil bed. Early to mid-spring bloomer. 16" tall

Pueblo

Quite fragrant bloom. White petals with a pale yellow cup that fades to white. Clump forming with strap-shaped leaves. Resistant to deer. Good for cut flowers. 6" – 12"

Gigantic Star

Very large, saffron yellow, long-lasting with a vanilla-like fragrance. Full sun to partial shade. Blooms early to mid-spring. 20" tall.

Ice Follies

A white daffodil with a yellow cup that changes to creamy-white, with a light vanilla fragrance. Slow to multiply. Blooms mid to late February. Full sun. 16" – 18" tall.

Quail

2 – 3 small, bright golden yellow flowers with an excellent fragrance. Plant in the front row. Blooms in February. 12" – 14" tall.

Double Campernelle

Dozens of petals neatly nested together like a perfect little rose. Very fragrant. A tough little daffodil with a 400 year history. 10" – 12"

Hawera

An elegant miniature with nodding, pale yellow florets having swept-back petals. Partial shade to full sun. Will also grow in alkaline soil. Multiplies. 8" – 10"

Waterperry

A low growing, elegant daffodil that does best in some shade. Creamy-white petals and an apricot-pink cup. Cooler weather brings out the colors. 8" – 12"

Pink Charm

Petals of ivory-white and a cup of yellowish-white with a small delicate pink band at the rim. Cooler weather brings out the pink color. Full afternoon shade. 14"

Ceylon

Buttercup yellow petals with a large orange-red cup. Long-lasting blooms excellent for naturalizing. Full sun to partial shade. Blooms early to mid-spring. 14" – 16" tall.
