

Ag Disaster Damage Assessment - DORIAN

Post-disaster survey of agricultural damages and losses

This survey instrument was created to assist UF-IFAS Extension agents and USDA-Farm Service Agency personnel to collect information on the impacts of natural disasters on the agriculture sector in Florida. The survey is to be completed for each farm or ranch operation visited or owner/manager interviewed.

Your name will be recorded for each survey record completed. All information will be kept strictly confidential. Only the principal investigators will have access to the detailed information collected in this survey. The results will be compiled and reported as county averages. You may choose whether to participate in the survey, and you may withdraw at any time. There is no personal compensation provided for participation. The Qualtrics survey system uses data encryption, so there is minimal risk that security of any online data may be breached.

If you consent to participate, please click on the link below to proceed to the online survey. If you have any questions about this project, contact the investigators:

Christa D. Court, University of Florida, Food & Resource Economics Department,
Email: ccourt@ufl.edu, Telephone: 352-294-7675

If you have any questions about your rights as a study participant, contact the University of Florida Institutional Review Board: irb2@ufl.edu, or 352-392-0433.

Thank you for your cooperation.
