

Stamp Roll Printing

The Printer you will use is Brother QL-800 and after installing the Driver, no changes needed to print using the PB Label stock SL-SPM02

Item #SL-SPM02

SendPro® Postage Roll for Stamp Printing

For: SendPro® Online Shipping and Mailing application printers 6WB-M, QL-700, QL-800, SL-SPM8

1 x \$39.99 [ADD TO CART](#)

For use with the 6WB-M, QL-700, QL-800 or SL-SPM8 to print the exact postage you need right from your desktop.

- For use with all mail classes
- No date restrictions – just print postage and use it when you want
- Prints approximately 1,000 stamps

When setting up the Roll Printing for Stamps you create the “label” through Document Tab in Outputs. You can setup as Client or Response as requested by the customer.

Setting as **Response**, you need to set the Printer to the Label created in SPE, set the Resize % to approx. 120 and set the **Left Margin 30** and **Top Margin 5**. However, you can adjust as needed.

Printer: Label Stock: Generic

Copies: 1 Print Resizing: 120

Left Margin: 30 Top Margin: 5

Print Rotation: 0°, 90°, 180°, 270°

[CANCEL](#) [SAVE](#) [SAVE & CLOSE](#)

Setting as **Client**, Printer is blank and the **Resize % won't matter**, you have to change Resize % on the Print screen of Chrome. Set the **Left Margin to 30** and the **Top Margin to 5**. Adjust as needed.

The screenshot shows the 'Edit Document' window with the 'Printing Options' tab selected. On the left, the 'Printer Type' is set to 'Client'. On the right, the 'Print Later', 'Paginate', and 'Browser Resize' checkboxes are unchecked. The 'Printer' is set to 'Generic' and 'Stock' is 'Generic'. 'Copies' is 1, 'Print Resizing' is 120, 'Left Margin' is 30, and 'Top Margin' is 5. The 'Print Rotation' section shows icons for 0°, 90°, 180°, and 270°. At the bottom are 'CANCEL', 'SAVE', and 'SAVE & CLOSE' buttons.

In the **Stamps App, Version 1.9**, Select the **Roll** tab at the top, then select **Test Print**.

When you print using **Response**, the Stamp(s) prints directly to the printer.

For **Client**, the Stamp prints to a window of the Webpage. Select the Printer button.

Select **Brother QL-800** printer and then change the **Resize % as needed**. For this one 100% printed perfect. However, you can make it smaller or larger.
