Screening for COVID-19

Are you experiencing symptoms?
Symptoms may appear in 2–14 days after exposure to the virus.
The most common symptoms of COVID-19 are cough and shortness of breath. Other symptoms include fever, chills, shaking, muscle pain, headaches, sore throat and a new loss of taste or smell.

Have you returned from international travel or a cruise within the last 14 days and have any of the symptoms above?

Have you been around someone diagnosed with COVID-19?
If you answered “yes” to any of the above questions, call your health care provider or your county health department (CHD) by scanning the code for the local CHD finder. Or call 1-866-779-6121.

Guidance
- Self-monitor for fever, cough, or other respiratory symptoms for 14 days.
- Avoid contact with sick people.
- Delay any additional travel plans until no longer sick.
- Wash hands often with soap and water for at least 20 seconds.
- Cover mouth and nose with a tissue or sleeve when coughing or sneezing. Throw the tissue in the trash.
