

Chris Prevatt
2019 FACAA Educational Foundation Scholarship Award

To FACAA Education Foundation Chair:

Please allow me to extend my sincerest gratitude as the recipient of the scholarship funded travel from FACAA. As a recipient, I have utilized the scholarship to further my skills in agronomy, animal science, and agricultural economics by attending the 2019 NACAA AM/PIC in Fort Wayne, Indiana. Because of this wonderful opportunity, I aim to improve the economics of producers grazing perennial forages in Florida. In addition, I plan to develop new educational materials for State and County Extension Faculty to utilize on field visits with producers. Lastly, this spring I will be hosting two webinars on the economic variables that impact grazing perennial warm-season forages in Florida. Your investment in my professional development has truly allowed me to further my horizons on the new developments agricultural is facing today. Thank you for allowing me this opportunity to stay ahead of the changes and to be able to disseminate this knowledge to my peers, so that all of Florida agriculture can benefit.

Sincerely,

Chris Prevatt, MS
