

Dear FACA Educational Foundation Chair,

Thank you very much for the Travel Scholarship Award. I attended many abstract sessions at this year's NACAA AMPIC meeting in Fort Wayne, Indiana and received some very valuable information about how to improve my educational programming. The biggest benefit was how to develop an online Qualtrics survey that I can fill out on my phone after every site visit I conduct. Having a tool to log pertinent impact data will greatly help me conduct end of the year reporting. I also attended several sessions for Early Career development and received excellent advice from more seasoned agents about how to conduct myself professionally. Finally, I made several great contact with agents from other States and expanded my network of professionals that I can rely on to gather accurate information on all sorts of topics. Thank you again for the assistance in attending this wonderful conference.

A handwritten signature in black ink, appearing to read "Kevin Korus". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Dr. Kevin Korus
