

I used the FACAA Educational Funds I received for 2019 to attend the 2019 National Association of County Agricultural Agents (NACAA) Annual Meeting and Professional Improvement Conference from September 6 – 13. This conference was held in Fort Wayne, Indiana and included educational sessions such as abstracts, lectures and tours. This event gave me the opportunity to gain knowledge related to my programmatic assignment of production agriculture. I was also able to network and develop friendships with County Agents from around the country that have similar programs to mine. I appreciate the support I received from FACAA Education Scholarship Committee to attend this meeting.
